

STUDIO IN THE CLOUD

Enable your next production project with a simplified and secure studio platform. Rapidly deploy GPU accelerated virtual workstations with a few clicks, fully loaded with your creative applications, custom tools, and project environments. Connect to virtual workstations from any location and virtually any device.

Launch the world's most popular, high-performance file systems on-demand, without the need to over-provision or maintain expensive server infrastructure. Manage storage costs effectively with automated data-tiering strategies, project segregation, and archival solutions, all under one service. Quickly ingest massive amounts of footage from production shoots and securely transfer assets to/from 3rd party vendors and clients with production-proven solutions.

Take advantage of powerful, spare cloud compute instances at a significantly reduced cost to scale your render capacity during peak demand. Avoid licensing shortage with Usage Based Licensing (UBL), available for several industry-leading creative applications and render plugins.

SOLUTION BENEFITS

- + Lower IT requirements, lower IT overhead
- + Quantify production costs per project
- + MPAA/CDSA/TPN compliant ready
- + Reduce time-to-production
- + Pay-as-you-go (OPEX vs. CAPEX)
- + Integration with existing infrastructure
- + Global deployment flexibility
- + Available managed services & ongoing support

USE CASES

Client Data, Separated & Secured

Security is paramount in the cloud. Studio in the Cloud can be fine tuned for any client compliance requirement.

Unpredictable Workloads

Rapidly provision your next production with virtually limitless workstations and render worker capacity in minutes, not hours or weeks.

Mobility & Accessibility

Bring the studio to your client or next production shoot, access your environment securely from any location, on any device with an internet connection.

Global Workforce

Leverage diverse, creative talent around the world.

OVER 80+ CREATIVE APPLICATIONS SUPPORTED

SOLUTIONS FOR ALL STUDIOS

CLOUD NATIVE

ALL IN CLOUD

Delivering a production-ready, project-driven, digital content creation studio hosted entirely in the cloud.

Virtual Workstations

High-Performance File System

Render Farm Orchestration

VIRTUAL WORKSTATIONS

Ideal for studios and educational institutions that require all the benefits of virtual workstations and high-performance file systems, without render farm orchestration.

Virtual Workstations

High-Performance File System

ALL IN CLOUD + BURST RENDER

Geared toward studios with large pre-existing on-prem investments looking to quickly and easily scale those services with the cloud.

Virtual Workstations

High-Performance File System

Render Farm Orchestration

Cloud Component

On-prem Component

HYBRID CLOUD

BURST RENDER (on-prem flex)

Allows studios to extend their current on-prem render-farm capacity with low-cost cloud instances.

CASE STUDIES

Solving the Technical Challenges of Tomorrow

Based in Mumbai and Chennai, FutureWorks is a leading end-to-end film production services provider. Staying ahead with technology is what separates FutureWorks from its competition. With Six Nines' help, FutureWorks is now leveraging the cloud's benefits for any future production.

Developing the Next Gen of Game Artists

Recognizing the technical limitations and challenges many young students face, Gearbox, with Six Nines' help, set out to develop a virtual classroom leveraging GPU accelerated cloud workstations with NICE DCV. Gearbox provided upcoming artists the opportunity to explore their creativity and learn invaluable experience from established game industry veterans.

More Scenes, Less Time

PIXOMONDO

Six Nines enabled Pixomondo to render large numbers of frames at 4k and manage unpredictable production requirements. The customer's schedule, not render farm availability, determine when work gets completed. Pixomondo's clients received faster turn-around times and Pixomondo's artists took more control over their schedule.

WHY SIX NINES?

Six Nines IT is an AWS Premier Consulting Partner specializing in helping businesses migrate to the cloud responsibly. Six Nines has successfully migrated hundreds of customers across all industries to the cloud and offers an unparalleled combination of speed, agility, experience, and proprietary solutions to deliver accelerated solutions and a rapid time-to-value. The company combines old-school, on-premises IT roots together with deep expertise and a laser focus on all things cloud – including a core concentration on High-Performance Computing, AI/ML, AWS Microsoft Workload Competency and DevOps Competency – to deliver solutions that are individually tailored to meet customers' needs throughout the cloud lifecycle.
